

5. MISCELLANEOUS SERVICES

5.1. PRESUBSCRIPTION

The Company will provide 1+ presubscription or 10XXX equal access consistent with the equal access rules of the Commission and of the Federal Communications Commission to enable end users to access an interexchange carrier (IC) for intrastate toll calling.

Presubscription is an arrangement whereby an end user may select and designate to the Company an Interexchange Carrier (IC) to access interexchange calls without the use of an access code. This IC is referred to as the end user's Primary Interexchange Carrier (PIC). The end user may select as its PIC any IC that orders originating FGD Switched Access Service at the end office that serves the end user.

New end users who are served by end offices equipped with FGD will be asked to presubscribe to an IC at the time they place an order with the Company for Exchange Access Service. They may select either of the following options. There will be no charge for this initial selection:

- Designate an IC as a PIC and dial 10XXX to reach other ICs.
- Designate that they do not want to be presubscribed to any IC and choose to dial 10XXX for all calls to all ICs.

After the end user's initial selection of a predesignated IC, a nonrecurring charge, as set forth in Section 5.4, will apply for any additional change in selection.

When an end user switches both their intraLATA and interLATA carrier at the same time, and when the end user selects the same carrier for both interLATA and intraLATA service, the Company will waive the intraLATA presubscription charge.

For 30 calendar days following the initiation of new service, an end user's initial request for either intraLATA or interLATA interexchange service will be provided free of charge. If an end user is unable to make a selection at the time of initiation of local service, the Company will read a random listing of all available toll providers to aid in the selection. If a selection is still not possible, the Company will inform the end user that the end user has 30 calendar days in which to inform the Company of a toll carrier selection. Until the end user informs the Company of a choice for a toll provider(s), the end user will not have a toll carrier but rather will be required to dial a carrier access code to route a toll call to the carrier of the end user's choice or make other arrangements. After 30 calendar days, the new end user's intraLATA or interLATA interexchange service selection will be subject to the presubscription rates set forth in Section 5.

5. MISCELLANEOUS SERVICES

5.2. UNAUTHORIZED PRIMARY INTEREXCHANGE CARRIER CHANGE

An unauthorized Primary Interexchange Carrier (PIC) change is a PIC change that is requested by an interexchange carrier (IC) when the Local Exchange Service customer, or their authorized agent, denies authorizing the PIC change and the IC is unable to produce a valid letter of authorization for the change from the customer or the customer's authorized agent.

The interval during which a customer may submit a claim for an unauthorized PIC change will be twelve months from the date of the original PIC change.

An unauthorized PIC change is subject to the charge specified in 5.4, following.

5.3. SPECIAL ASSEMBLIES AND INDIVIDUAL CASE BASIS ARRANGEMENTS

Arrangements will be developed on a contract basis.
